STATINTL

Dear

I have just received a copy of HORIZONS and find it very fascinating. I strongly concur with the objectives as described in the Editor's statement and I found the articles indeed met these objectives. I would appreciate receiving succeeding issues of this very worthwhile magazine.

I have left the Air Force and am now currently engaged in Systems Analysis work for CIA. It would be more convenient for me if you would be kind enough to use my home address.

Thank you.

Yours very truly,

STATINTL
